who will conduct them to the Stewards of their  
Section.
2. Judges, as they arrive at their decision, will write

Tenterfield Show Society Inc • 2016 Schedule • Page 3
their award, with any remarks they may desire, on the Judge's Card.
3. Judges shall disqualify any exhibit which in their opinion does not comply with the Regulations, and shall enter the reasons on the Cards. If the Judge has any doubts as to the correct interpretation of the Regulations, he shall at once refer to the Stewards.
4. Judges may recommend for Certificate, or commend as they think fit, any Exhibit of Special Merit not included in the Schedule of Prizes, and will not award prizes in any class in which the Exhibit is not considered, in their opinion, to possess sufficient merit.
5. Judges will sign the Judge's Book and deliver to the Chief Stewards of the Section.
6. The Judges shall decide on the merits of each Exhibit without reference to Pedigree (except in the case of Blood Stock, when they may be provided with the Pedigree, if required), or name and place of the Exhibitor or Breeder, and shall only take notice of the animal, its age and number; they shall, however, state for the information of the Committee if any of the stock does not come within the Regulations prescribed for the competition, so that further inquiry may be made as the Committee may deem fit.
7. In forming their judgement they will have regard to the symmetry, early maturing, breeding profitableness, size, and general qualities characteristic of the different Exhibits, making the allowance for age, feeding, and circumstances peculiar to the case coming before them.
8. The Judges are particularly requested to satisfy themselves as far as possible regarding the soundness of all animals before awarding the prizes, and to avoid giving prizes to animals showing symptoms of hereditary diseases. The Judges may consult the Government Veterinary Surgeon, if they deem expedient. No protest on Veterinary grounds will be received.
9. The Judges may award a Second Prize instead of a First Prize, or may withhold a prize altogether where the Exhibit or Exhibits are not of sufficient merit. They are particularly requested to consider the classes in which there is only one exhibit, and only to make awards when the exhibits deserve them.
10. Judges are requested not to enter Pavilion, Shed, or any place where they are appointed to judge, before being requested to, by the Steward in charge.
11. If a Judge in any Section is unable to give a decision, he is to have the right to request the Chief Steward of the Section to call another person to confer.

MESSAGE FROM THE PRESIDENT
The 2016 Tenterfield Show is fast approaching and our theme this year is “Grow with the Show”.

I would like to take this opportunity to thank in advance our many exhibitors, stewards, judges, timekeepers and volunteers who work tirelessly throughout the year (and during this event), to bring our wonderful Agricultural Show together.

Of course there would not be a show without our many sponsors who together with the Show Committee work hard to provide all the entertainment and prizes for you all to enjoy.

Hoping everyone is a winner!

“See you at the Show”

Matt Duff - President
The Show Society wishes to acknowledge with thanks those sponsors for the 2015 show. We would also like to thank all donors of money and trophies for our 2016 show. Listed below are names available at time of going to print.

HEALTH PROTOCOL FOR THE SHOWING OF SHEEP

The following protocols were developed by the Tenterfield Show Society Inc. and the Honorary Veterinarian Dr John Brown in August 2001, for guidance and the requirements of the Show. A small committee, consisting of the Show President, members of the sheep committee and the Honorary Veterinarian developed the protocols and then took them to the full committee of the Show Society for their approval. The protocols were endorsed by the Society in September 2001.

AIMS OF PROTOCOL

- To minimise and reduce the risk of any exhibitor bringing any disease to the show and its environment
- To minimise and reduce the risk of any disease being contracted during the show, by having in place a physical environment that is clean and safe
- To minimise and reduce the risk of any disease being contracted during the show, by conducting the show in accordance with health standards required by the Honorary Veterinarian and external bodies who have set guidelines for maintaining compliance for accreditation.
- To develop for exhibitors an environment that is considered safe in terms of disease and maintenance of accreditation.

CRITERIA ON WHICH PROTOCOLS WERE DEVELOPED

1. The final decision for all requirements rests with the Honorary Veterinarian for the Show, Dr Pip Bacon. The Veterinarian has the right to refuse entries from any stud or producer on health grounds. The veterinarian's decision is final.

2. Accreditation for diseases is preferred to owner declaration or non assessments of sheep.

3. The Show Society will endeavour to treat all exhibitors fairly.

4. The number of exhibitors, the current accreditation of different exhibitor's sheep and the physical environment may restrict entries.

5. The Honorary Veterinarian will conduct an Audit of the venue, fourteen days before the show and supply each exhibitor with a copy of the Exhibition Venue Audit Certificate stating that the show is to be conducted in a manner, and has in place regulations, that comply with all accreditation requirements of all disease accreditation programmes.

6. Stud Merinos only will be shown on the first day of the show.

DISEASE REQUIREMENTS FOR THE SHOWING OF STUD MERINO SHEEP

1. Sheep are free of all external parasites, (Lice, Ked) Show Requirement, Owner Declaration

2. Ovine Brucellosis. Show Requirement, Current Accreditation by an External Body, in NSW the NSW Agriculture.

3. Virulent Foot rot. Show requirement, Current Accreditation by a veterinarian or Owner’s Declaration that they are free from virulent foot rot and are not in quarantine.

4. Ovine Johne's Disease. All studs are encouraged to part of the map programme and/or know their health status in relation to OJD.

HEALTH REQUIREMENT FOR PRIME LAMBS

All lambs will be free of external parasites, and not come from a property that is suspected of having, or being in quarantine for, virulent foot rot, brucellosis or OJD.

DRUG TESTING

ATTENTION ALL HORSE COMPETITORS

This show is a member of the Central Northern Group of Show Societies and this Group now has undertaken a horse drug testing programme which will be implemented as from the commencement of Group shows in 1991. It is your responsibility to know the rules and regulations regarding this drug testing programme and this show or this Group will not in any way accept responsibility for your lack of knowledge and/or understanding of this subject.

It is a condition of entry at this show that all horses competing at this show, compete on the understanding that drug testing may be carried out at this show and if drugs are detected then penalties will apply.

PROHIBITED DRUGS

It is the intention of these regulations that all animals shall perform on their merits without the aid of drugs which will affect the conduct, performance or appearance of the animal.

An Exhibitor shall NOT administer and shall procure that there shall Not be administered to his/her exhibit any drug or substance herein called a “prohibited drug”. Prohibited drugs are substances originating externally whether or not they are endogenous to the animal and means any substance capable of affecting the performance of behaviour of an animal by its action upon the Central or peripheral nervous system, the cardiovascular system, the respiratory system, the alimentary digestive system, the musculo-skeletal system or the urogenital system and shall include analgesics, anti-histamines, anti-inflammatory agents, blood coagulants, diuretics, hormones, and their synthetic counterparts, cortico-steroids, local anaesthetics, muscle relaxants and tranquilisers and vitamins.

The use of antibiotic substances (anti-viral, anti-microbial, anti-parasitic) with the exception of Procaine Penicillin may be permitted.

In the Case of Showjumping and Dressage entries ONLY, which are conducted under F.E.I. Rules, the use of Phenylbutazone and Oxyphenylbutazone is permitted provided the maximum level of either or both does not exceed 2 micrograms per millilitre of plasma, in aggregate, at the time at which the exhibit is to be judged.

The Society (or Group) may at its discretion cause an examination to be made of an exhibit by a Veterinary Officer who in the course of such examination may make by such methods and he may determine such tests of and take such samples from such exhibit as he deems necessary or advisable. The result of the examination shall be reported to the Group and the Society.

An exhibit to which, in the opinion of a Veterinary Officer, a prohibited Drug has been administered shall not be exhibited without the consent of the Group and shall be removed from the Showground forthwith upon notice from the Group or Society.

The Group may at its sole discretion impose the penalties applicable in the light of all information made available and may disallow or cancel the entry and any award made to the exhibit, without in such case being called upon to give reason therefore.

The owner or any other person who was in charge of the animal to which a prohibited drug has been administered will be disqualified and penalties shall apply.

THE PENALTIES TO APPLY SHALL BE 12 months disqualification from exhibiting within this Group for the Animal and the Person in Charge of the animal. It will be recommended to the A.S.C. that these penalties shall apply on a Statewide Level and that disqualification should be Statewide.

If the animal is not presented for examination within the time specified by the Group, then the same penalties shall apply as if a Prohibited Drug was detected.

TREATMENT FORMS WILL NOT BE ACCEPTED

Any person who at any time administers or causes to be administered for the purpose of affecting the performance of an animal in any event or class at the Show any Drug as defined previously or has in his/her possession any improper contrivance may be disqualified or otherwise penalised by the Group.

Particular attention will be paid to the detection of sedative and tranquiliser groups of drugs but analysis for all classes of prohibited substances will be included.

The collection of samples inter alia will always involve taking urine and/or blood.

An examination may include an examination for desensitised limbs. Any animal found to have a limb or part of a limb desensitised by any means will be considered to have competed under the influence of a prohibited substance and penalised accordingly.

The owner or their representative may be present during testing, but shall not interfere in any way with the conduct of the test, and will observe the instructions of the veterinary officer on duty.

The Society (or Group) and any servant or appointee of the Society or Group shall not be liable to the exhibitor, owner or any other interested parties, for the death of, or for any injury, damage or infection which may be sustained by an exhibit occasioned by or arising out of any act or omission of any servant, agent or appointee of the Society or Group done or committed in the course of his examination whether due to the negligence of any such servant, agent or appointee or otherwise.

Exhibitors must abide by the directions of the Society or Group as to the procedures to be followed for the examination of their exhibit and failure to adhere to these directions shall incur the same penalties as if prohibited drugs were detected.

**Ingredients**

- 185 grams softened butter
- 3 eggs
- 185 ml milk
- 330 grams castor sugar
- 225 grams self -raising flour
- 3 tablespoons custard powder
- Half tablespoon cocoa powder
- 2 teaspoons milk, extra
- Few drops of lemon essence
- Few drops pf pink food colouring

**Icing**

- 20 grams softened butter
- 250 grams pure icing sugar
- 2 tablespoons hot water approx.

**Method**

1. Preheat oven to 180 degrees
2. Grease and line the base with baking paper for three 18cm round cake tins
3. Sift flour and custard powder in large bowl, add the butter, eggs, milk and sugar and beat using electric mixer, ensuring there are no lumps of butter and the mix is light and fluffy
4. Next, divide the mix equally into three bowls. Weigh them to make sure they are equal.
5. Now make the three different colours. To the white bowl add a few drops of lemon essence. Make the next bowl pink by adding just a drop of food colouring at a time until you get the right colour. To the last bowl mix the cocoa powder into a paste using the extra teaspoons of milk, stir into last bowl. Mix well till colour is even.
6. Spoon mix into the prepared tins and bake around 40-45 minutes depending on your oven. Cake is cooked when it springs back to the touch. Let cakes cool for a few minutes before turning out onto a flat tea towel lined with baking paper.

**Icing**

Combine icing sugar and butter slowly add the hot water stir to form a smooth consistency. When cakes are cool, join each layer with the icing. Place chocolate layer on bottom lying on its top, next the pink layer with its’ base facing down; then lastly the white with its top facing up. Ice only the top with the remaining white icing.
